

Sub B1  
A1

(d) a second remote controller at said remote location receiving signals transmitted by said first controller and in response thereto transmitting command signals to said first controller representative of a desired change in the first rate of the selected additive;  
wherein the first onsite controller causes the flow control device to change the rate of the selected additive in response to the command signals.

2. The system of claim 1, wherein said first onsite controller includes a display that displays at least the flow rate of the selected additive supplied to the formation fluid.

#### REMARKS

The claims have been amended for the purposes of explication and clarity. Consideration of the application, as amended, is respectfully requested. Please charge any required fee for this amendment to Deposit Account No. **02-0429(194-13026-CIP)**. The Examiner is invited to discuss this matter with Applicant's attorneys should any questions arise.

Respectfully submitted,

Date: May 4, 2001
